

# Investment Fund

Investment funds are referred to as certain forms of collective investments. In fact, the investment Fund is a property complex which can be either joint stock company or structure with common property for citizens and organizations. The interests of investors in investment funds are submitted by management companies. The main objective of funds is to ensure access to the securities market, the average investor, bringing money into the country's economy. Thus the process of asset management is involved in professional market participants have the appropriate license. There are two types of funds for investment. They are divided with regard to the shape of their creation to the next. Additionally, mutual Funds are open interval and closed. To carry out stock management can be only professional participants of the securities market, managing companies licensed. The investment objects of investment the Fund can be joint bonded and mixed. In addition, there are industry funds. They are specialized in investments in oil and gas facilities engineering, etc. Index funds are called mutual funds portfolio for investment which has similarities with the stock index. Index formed of securities organizations which are leaders in the relevant market. That is why the risks of these investments remain at a low level. Another type of funds real estate funds. The most common form for real estate funds closed. Due to the fact that construction projects can have a long implementation period, unlike for example the most liquid securities. In the current legislation highlighted a certain category of funds involving only professional investors. This type related hedge funds. They have the maximum flexibility when choosing the investment objects, including with use of derivatives. In various countries is also popular for venture capital funds. We have to date, they are not so popular. Their mission is to support organizations and promising projects at the initial level of development. The performance of the investment funds for the last complete financial year can be viewed in ratige mutual Funds. To post a comment you must login.
